DETAILED ACTION

The following is an examiner's statement of reasons for allowance: the invention requires metering in the 6-APA and the prior art only teaches a batch wise process, and there is no motivation to use metering instead of batch wise, thus the claims are allowable. A batch wise process of dumping in the whole reactant versus metering it in is not anticipated nor rendered obvious by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
